Bio:

“What makes a truly great DJ”, are they born or are they made? DJ Celeste is a classic example of a DJ who naturally feels music and rhythm and has also dedicated a decade to studying the art and science of DJing, music production, and sound engineering. Not all DJs can claim to be able to rock the crowd AND also set up, fine tune, and run the sound system that rocks the crowd – Miss Lear hits both marks.

Armed with her own professional sound and lighting system, a definite knack for climactic and seamless song mixing, and a never ending enthusiasm for providing a top notch sonic experience for her listeners, Celeste possesses all the creative flair and technical expertise that makes a truly great modern DJ. With an emphasis on keeping the sound hip, energized, sophisticated and accessible, DJ Celeste craftily mixes everything from the hottest Top 40 and Pop hits to high energy House music, Electro and Indie Rock to diverse World Music, 70's, 80's and 90's classics, Hip Hop, creative Mash Ups and Remixes. She has a passion for rich and mellow Chillout, Downtempo and Lounge Music and closely follows all the most cutting edge new underground and mainstream artists to stay ahead of the game.
